CAREER OBJECTIVE

Motivated and self-driven SSC candidate with hands-on, self-taught experience in web development and freelancing. Skilled in building responsive websites using HTML, CSS, JavaScript, and Python, with a growing portfolio of independent projects. Seeking opportunities, internships, or entry-level roles to apply technical skills, gain professional experience, and contribute to real-world digital projects while continuing academic growth.

EDUCATION

Secondary School Certificate (SSC)

2024 – 2025

Bhornia Hat High School | Result: Awaiting

TECHNICAL SKILLS

Languages & Markup

- HTML5
- CSS3
- JavaScript
- Python

Tools & Other Skills

- Git & GitHub
- UI/UX Design (Figma)
- Responsive Web Design
- Basic SEO & Digital Optimization

SELECTED PROJECTS

Nova Pay Dashboard

Personal Project

- Designed a secure, responsive multi-currency asset tracking platform (FinTech) featuring real-time data visualizers.

Apex Storefront

Personal Project

- Built an ultra-fast, headless e-commerce engine integrated with global payment infrastructure.

Sadik Zone — Print on Demand Business

Ongoing

- Founded and developed a Print-on-Demand e-commerce brand (sadikzone.site) targeting the USA market, including technical setup, store architecture, and brand identity.

ACHIEVEMENTS & HIGHLIGHTS

- Delivered 50+ independent web development and design projects as a freelancer.
- Maintained a 99% client satisfaction rate across freelance engagements.
- Built and actively maintain a professional developer portfolio showcasing technical projects.
